REUNION SIDE TRIP.

Confederate Veterans May Get Rate to St. Louis.

At a recent meeting of the South eastern Passenger Association held in St. Louis, the question of granting Confederate Veterans a rate of one cent a mile to St. Louis from Nashville, following the reunion there, was discussed, but it was decided to defer action on it until the next meeting of the association, which will be held at Atlanta on May 18. It is probable that the veterans will be granted such a rate as has been asked for.

INDICTED FOR MURDER.

Louis Wilbert, Who Killed Gus McIntosh.

The Hopkins county grand jury returned an indictment against Louis Wilbert, charging him with willful murder for the killing of Gus McIntosh at Mannington.

PARKER LEADS.

Has Ninety-Four Delegates to Hearst's Sixty-Four.

Claimed That Gov. Beckham Has Left Hearst Forces of Late.

Democratic Situation.

For Judge Parker..... 94

For W. R. Hearst..... 64

For Richard Oney..... 24

For Tom Johnson..... 2

Uninstructed delegates..... 156

Chicago, May 7.—There has been much activity among the presidential possibilities during the past week. The Hearst forces carried Iowa and Judge Parker swept the state of Connecticut. Judge Parker is in the lead with instructed delegates. There have been one hundred and fifty-six uninstructed delegates selected to the national Democratic convention. The next state convention to be held is in Alabama on Wednesday next. The Parker men are claiming all of the twenty two delegates.

Wants Parker's Position.

New York, May 7.—The New York Times, editorially, is calling upon Judge Parker to tell where he stands on the issues concerning the party. The Times is for Judge Parker, but believes he should speak out.

Gov. Beckham Not For Hearst.

A special to the St. Louis Republic from Louisville says:

"Gov. Beckham is said to have decided not to declare himself for W. R. Hearst for President, but will favor an uninstructed delegation to the St. Louis, which shall consist of himself, Senators Blackburn and McCreary and Congressman David H. Smith as delegates-at-large.

The last-named three favor Judge Parker as the nominee. This is stated by the Louisville Herald to have been arrived at a conference between Gov. Beckham, W. B. Haideman, editor of the Louisville Times and Henry Watter-son, editor of the Courier-Journal.

Hearst's Next Fight.

Washington, May 6.—It is now said that the Hearst forces are planning to make their next big fight in the State of Ohio. Former Congressman J. J. Lentz, of Columbus, has been in Washington for several days, conferring with the Hearst management, and it is said that the decision to tackle in earnest was due largely to the representations made by Lentz. The Hearst campaign has been working in Ohio in a desultory sort of way for some time past, but Mr. Lentz wants to undertake a systematic campaign.

ASKS HEAVY DAMAGES.

Administrator of Dick Stoner Sues Coal Mining Company.

The administrator of Richard Stoner, col., who was killed in the Empire mines last November, has filed suit here against the Empire Coal and Mining Company for \$12,000 damages. It is alleged in the petition that while Stoner was at work in the mines the roof of the room fell, crushing him down on an electric machine over which he was attempting to make his escape, and he was thus killed. It is further claimed that the roof was unsafe and that the defendant knew of same.

Tied in a Knot.

Mr. L. M. Cayce, who is now located at Grenada, Miss., last week sent the Kentuckian a freak radiogram, telling him that he was of the long red variety and the peculiar part was that it had in growing tied itself into a knot. When allowed to wither and soften, it was untied and measured about eight inches.

AN ANCIENT MEDAL

Bearing the Coat of Arms of Sir George Canning.

Mr. Wm. Baker, who lives on the Hooper place, while working in his garden not long ago, unearthed a very old coin or medal, which no one here can explain. It is one inch in diameter and is about the size of a nickel. On one side is the head, profile view, of a distinguished looking gentleman, surrounded by the words "Rt. Hon. George Canning." On the other side is what appears to be a coat of arms. What seems to be a heron is standing on a low tomb or slab with its beak in the top of a plant similar in appearance to a stalk of corn. On the slab are the words: "Born (date effaced) Died Aug. 1827." Surrounding the crest, on the edge of the coin, is the inscription, "The Prince of National Freedom."

Sir George Canning was an English Statesman who was born in 1770 and died in 1827. Where the medal came from or what it represents is involved in doubt. The Hooper place is one of the old landmarks of Hopkinsville, formerly the home of the late D. J. Hooper, who died a few years ago.

SUNDAY SCHOOL WORKERS.

Met In Convention at Pembroke Last Week.

The Christian County Sunday School Association held its annual convention at Pembroke last Friday and Saturday with a good attendance. There were several interesting sessions held and addresses made by well known speakers, including Dr. E. L. Southgate and Dr. C. H. Nash, from this city. Dr. Nash spoke Friday night.

Supervisors TO MEET.

If Your Assessment Is Too Low You Can Have It Raised.

The Board of City Tax Supervisors for 1904 will meet in session at the city court room next Thursday and remain in session until its business is completed. The board is composed of J. D. Russell, Sr., M. L. Elb and J. E. Buchanan.

FLOPED TO TENNESSEE.

"Dick" Adcock and Miss Dora Harrison Married.

Mr. J. F. Adcock and Miss Dora Binnie Harrison, both of Herndon, were married at Weaver's Store, Tenn., Friday.

The bride is a daughter of Mr. John Harrison and is only sixteen years old. The groom is a son of Mr. J. C. Adcock, of near Herndon, and a brother of Mrs. J. M. Cravens, of this city.

DWELLING DESTROYED.

Outbuildings Caught and Were Also Consumed.

The residence of Mrs. Mary E. Morrison, near St. Elmo, was totally destroyed by fire about 1 o'clock Saturday morning. The origin of the blaze is not known to the members of the family, who just had time to get out in time to escape cremation. Nothing was saved from the house except such small articles as could be carried out by the family as they ran from the burning building. The fire spread from the house to the smoke house, which, with all its contents, was destroyed. A buggy house adjoining the smoke house containing a buggy, was also destroyed. It is understood that none of the property destroyed was insured. The misfortune leaves Mrs. Morrison in destitute circumstances.—Pembroke Journal.

SUDDENLY INSANE.

Became Sylvester Layne, and Tried to Murder Family.

Sylvester Layne, who moved from Christian county to Sedalia, Graves county, a few years ago was tried for lunacy at Mayfield Friday and ordered into confinement.

Layne went suddenly insane at his home near Sedalia and entering the home of James Usher armed with a knife, he tried to kill the whole family. He was finally overpowered, tied hand and foot and carried to Mayfield, arriving there late at night.

Officials of the court were called out on bed early Friday morning to conduct the trial, a jury was made up and the case was disposed of before breakfast.

Petitions in Bankruptcy.

Robt. Riley Blades, a merchant at Hopkinsville, has filed a petition in federal court, asking to be adjudged a bankrupt. His liabilities amount to about \$3,000 and his assets to \$1,200.

Benjamin Franklin Rice, a farmer of Logan county, has filed a petition in bankruptcy in the United States court. His liabilities amount to \$4,312.00 and his assets to \$50, upon which he claims exemptions.—Owensboro Messenger.

Big Price for Tobacco.

Louisville, May 6.—The record price for the season on burley tobacco was realized today. The Continental Tobacco Company paid 25 cents a pound for a hoghead of the Washington county product.

Will Have Picnic May 21.

IT COSTS TO BE CARELESS.

Surprising Result of an Inquiry Into Reckless Methods of Men Who Mail Letters.

The somewhat melodramatic if not grousing sound in the title dead-letter office, the report of which the government binds in a plain cover invariably lends a proper proportion to the matter, says the Indianapolis News. This is information of the kind that the social student or historian of civilization might find valuable. The number of pieces of mail matter of all kinds that came to the dead-letter office in the last fiscal year was 10,153,528; this was an increase of eight and one-half per cent. over the previous year. While the per cent. of increase necessarily diminishes each year, the superintendent says a comparison of the reports for a series of years shows a heavy and continuous increase each year; that is, we are getting more careless instead of less so. About seven-tenths of the total was ordinary unclaimed letters, which shows an increase of nine per cent. over the previous year.

Ordinary letters returned from foreign countries increased 100 per cent. Letters with a return address increased slightly. There was an increase of nearly seven per cent. in the number of letters and parcels held for postage. Misdirected letters—and here is one of the strongest arraignments of our intelligence—numbered 694,977 (this did not include postal cards), which was an increase of 20 per cent. and is unprecedented. And who would think that in the course of the year 88,936 persons had been so absent-minded as to mail matter with no address at all? Letters sent to hotels and failing of delivery numbered 310,196, and this was a slight decrease from the previous year. There were 11,075 letters and packages sent to fictitious addresses; this was a decrease from the year before of nearly 40,000, but in that year there had been transient causes what the superintendent does not say. But so it was last year. In round numbers about 100 letters a day last year were posted without addresses.

Letters sent to hotels and failing of delivery numbered 310,196, and this was a slight decrease from the previous year. There were 11,075 letters and packages sent to fictitious addresses; this was a decrease from the year before of nearly 40,000, but in that year there had been transient causes what the superintendent does not say. But so it was last year. In round numbers about 100 letters a day last year were posted without addresses.

About the same amount of money went astray in previous years—\$48,634.04. It came in 51,146 letters. Besides this, there was \$1,493,563.65 in drafts, money orders, checks, etc. There were deeds, wills, pension certificates, insurance policies and such things that found their way to the dead-letter office. Nearly 3,000,000 pieces of matter were held awaiting delivery, or filed because they could not be delivered, and this was an increase of about 175,000. The great amount of this matter is due to the failure of the writers to give their names and address and the sending of advertising printing matter under seal (which must be destroyed); also, because a large per cent. of the parcels do not contain merchandise but catalogues and the like, medicines and perishable articles, which must be destroyed.

Among other things that went to this post office graveyard were 80,029 photographs and 249,255 pieces of matter in which were postage stamps—an increase of nearly ten per cent. Here is another curious thing: There were separated from letters in the mail and found loose in the mail and in post offices \$5,821.90 worth of stamps that could not be returned. It is any consolation to those of us that have waited for "the letter that never came." It is to be noted that the superintendent says that about 7,500 manuscript communications were received by the office pertaining to the treatment of mail matter.

Oldest Chemist's Shop.
The oldest chemist's shop in England is said to be at Knarborough, the quaint Yorkshire town situated on the Nidd. The earliest date to which it can be traced back is 1730, but how much older than that it may be cannot be ascertained. Several years ago, when the British association met at Birmingham, Mr. Lawrence, the present tenant, lent some of his old shop bottles and a couple of mortars, which were included by Messrs. Southall Brothers and Barclay in an exhibit of "The Alchemist's Shop."

Exposure

To cold draughts of air, to keen and cutting winds, sudden changes of temperature, scanty clothing, undue exposure of the throat and neck after public speaking and singing, bring on coughs and colds. Ballard's Horehound Syrup is the best cure.

Mrs. A. Barr, Houston, Texas, writes, Jan. 31, 1902: "One bottle of Ballard's Horehound Syrup cured me of a very bad cough. It is very pleasant to take." 25c, 50c, \$1.00. Sold by R. C. Hardwick.

Growing Aches and Pains.

Mrs. Josie Summer, Bremont, Texas, writes, April 15, 1902: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing pains and aches in her knees. It cured her right away. I have also used it for frost bitten feet, with good success. It is the best liniment I ever used." 25c, 50c, \$1.00. Sold by R. C. Hardwick.

R. N. Andrews, Editor and Mgr. Cosmopolitan Magazine, New York, writes: "I have used your Herbina in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit. I recommend it unhesitatingly. 50c. Sold by R. C. Hardwick."

SANE IN INSANE ASYLUMS.

Odd Cases of People Who Voluntarily Forego Their Freedom—Some Fear Going Mad.

"Not all the people imprisoned in madhouses are insane. No, sir, not by a long shot. I've known scores of asylum inmates who had more sense than their keepers, and who were not crazy in any sense of the word."

The speaker, according to the Chicago Tribune, was an old attendant who had seen 30 years' service.

"I do not refer to inmates who are sane in all points but one—the victims of monomania," he continued. "No; quite apart from these unfortunate, there are hundreds who live and die in lunatic asylums and yet are no more mad than their keepers. I myself have known several cases where men and women voluntarily immersed themselves in asylums simply out of fear that they might go mad. They are neurotics, people who are always getting strange fancies into their heads, chiefly the result of laziness—and are haunted by the fear that some day they will lose their reason. I know one such man who has voluntarily made a 'lunatic' of himself for over 30 years, without showing the least sign of insanity."

"Then there are others—and these cases are numerous—whom drink has driven out of their senses at one time or another, and who have committed deeds of violence. A few weeks' retreat and treatment have put them all right again; but, although they are as sane as possible in confinement, it is not safe to give them their freedom for fear of relapse under temptation outside."

"In numbers of cases patients who have been cured and discharged return to us of their own free will. And there are others who might go back into the world, but have become so attached to their environment that they elect to spend the rest of their days in it."

"There can be no doubt that many of the sane inmates of asylums are much safer there than outside, and it is this knowledge which sends many of them to us and keeps them with us. Among my own people here is a very clever doctor, who a few years ago had a practice bringing him in a large income. He was, however, the victim of a strong periodic impulse to introduce poison in his patients' medicine, and the fear that some day he would be caught and thus become a martyr, grew so strong that he sold his practice and became an inmate here."

"The most remarkable cases, though, are those who become inmates of asylums rather than part from those they love. We have two sisters here, one hopelessly insane, the other as right as any woman living. They have always been devoted to each other, and when it was found necessary, 20 odd years ago, to confine the former, her sister who was on the eve of marriage, broke off her engagement and decided to spend the rest of her life with her relative."

"There are also scores of people in the criminal asylums who are of perfectly sound mind—in fact, many of them have never been anything else. They have, however, contrived to simulate madness and thus escape the hangman or a long term of penal servitude."

Anomalies of the Peerage.
Curious as it is that the duke of Devonshire should derive his title from a county with which neither he nor his ancestors have ever had the remotest connection, he is far from singular in this respect among his brother peers. Taking the dukes of England alone, it is sufficient to say that Manchester, Newcastle, Marlborough and Fife have no connection at all, either territorial or residential, with the place titularly associated with them. More singular still, there are Scottish peers, even representative peers for Scotland in parliament—for example, Viscount Falkland—who are of purely English descent and own not a single acre north of the Tweed, while there are Irish peers, such as Viscount Valentia, quite unconnected with Ireland, and sitting in the house of commons for English constituencies.

FOR CONGRESS.

HON. A. O. STANLEY,
of Henderson county.

Secretary Shaw has signed the treasury warrant for \$40,000,000, and yesterday delivered it to J. P. Morgan & Co., disbursing agents for the Panama government, thus completing the Panama Canal purchase. It is the largest warrant ever issued by the government, and its payment has left a deficit in the treasury.

There were important developments in the Eastern war last week. The Japanese invested Port Arthur by land as well as sea, and Admiral Alexeff escaped at the last moment by rail to Mukden, in the interior. The fall of Port Arthur in the near future is almost certain and the warships in the harbor, which Japan claims are bottled up, can only be saved by a miracle. The Russians have already been driven out of Korea and the Liau Tung peninsula, and the war is hardly sixty days old. At this rate the Japs will be fighting on Russian territory before three or four months have passed. Still the Russians take a hopeful view of things and it is said Gen. Kuropatkin has all along favored abandoning Port Arthur and concentrating an overwhelming army at Mukden or Harbin. The main trouble now is to save the remnant of the fleet at Port Arthur.

MORRIS CASE

Will Be Investigated By Council
Thursday Night.

The Board of Council Friday night, at its regular meeting, failed to act upon the case of officer Lee A. Morris, who was suspended for striking Civil Engineer W. H. Taylor with his bully, at the L. & N. depot. Neither side seemed ready to go into trial of the case. Both parties were present in person and by attorney. Judge C. H. Bush appeared for Mr. Morris and Mr. Jno. Feland for Mr. Taylor. An adjourned meeting will be held Thursday night for the trial of the case. In the meantime, officer Morris is still under suspension.

OLD MEMBERS RE-ELECTED.

Dr. Stites and Mr. Long Have
No Opposition.

The regular election of trustees for the Public Schools was held Saturday, two of the seven trustees being elected for terms of 3 years. Dr. Frank M. Stites and Mr. William A. Long, the retiring members, were both re-elected without opposition. The vote was the smallest ever cast in a similar election in the city, only 102 votes being polled. Dr. Stites received 102 and Mr. Long 100.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

ALL THE SMITHS INVITED.

Louisville Man Willing to Spend
\$25,000 in Entertaining Family.

The Smith family, not specifically, but generally, will assemble in Louisville this fall, if the plan of John Cabell Smith, a wealthy Kentuckian, is concurred in by the Smiths at large.

Smith has issued a general invitation through the press to the Smiths of the country to assemble in Louisville for a three days' reunion, and he will defray all the expenses of entertainment. He says he is willing to spend \$25,000 on his project, but that he will drop it unless he receives assurances that the Smith family of the United States will be represented by a fair proportion of those bearing the name. "There is no reason why several thousands should not attend," he says, "and in that event we could fix up a parade and other festivities that would startle the world. I want men, women and children and I want them to come prepared for a hilarious time. I want all who can come to notify me so that I can proceed with my plans."

It is useless to say that George, Denney, Elliott and Sam Smith, of this place together with all the other Smiths of the county, will attend.—Cadiz Record.

BAPTIST CHURCH

Adopts Resolutions on the Death
of Mr. Stephen E. Trice.

Whereas, in the providence of God, brother Stephen E. Trice, after a service of fifty-six years, has been taken from us by death.

Resolved, That we hereby express the deep sense of our loss as a church, and the individual loss of so many of us who knew him intimately in the private walks of life.

That we make record of his high Christian character in daily life, his faithful attention to all church duties, his loyal support of all the enterprises of the Church and the liberal spirit that characterized him in all Christian work through the many years of his church membership.

That, although we are saddened by his loss, we rejoice in his long life of usefulness, and we thank and praise the Lord for sparing him so long.

That we rejoice in the blessed hope that sustained our dear brother, and in the eternal rest that has come to him.

That we express our deepest sympathy for the loved ones who feel so deeply his loss, and ask for them the comforting, sustaining presence of the Holy Spirit in this sad hour of bereavement.

That a copy of these resolutions be placed in our records, and a copy sent to each of our denominational papers in the State and to our city papers.

CHURCH DEDICATION.

New Baptist Church at Kelly to
Be Dedicated June 5.

The new Mt. Zion Baptist church at Kelly, Ky., will be dedicated the first Sunday in June. The sermon will be preached by Rev. J. G. Bow, of Louisville. Rev. P. E. Herndon is the pastor. There will be an all day meeting, with plenty of dinner on the ground for everybody.

INDEPENDENTS WIN

In Great Telephone Fight in
Kansas City.

The Bell People Clearly Outclassed
in the Modern Improvements
in the Business.

The New Kansas City Home Telephone Company is having great success in its fight against the Bell Company in that territory. The most influential associations of business men in that city have decided to discontinue the use of the Missouri and Kansas (Bell) service, and hereafter support the Kansas City Telephone Company service only. Among the associations that have taken this step and ordered the removal of the "Bell" instruments are the Retail Druggists', Retail Grocers', Liverymen's, Master Plumbers', Undertakers', Jackson County Medical Association and the Missouri Academy of Medicine. The Homeopathic physicians are ready to fall into line and this will make practically every physician in Kansas City, Mo., and Kansas City, Kas., subscribers for the Home Telephone only. At a meeting held in the Coates House on April 13th the matter was thoroughly discussed by the business men. The Kansas City Times in speaking of the meeting says in part as follows:

"The meeting lasted nearly three hours. At least twenty men made speeches describing their grievances against the Bell Telephone and Kansas (or Bell) Telephone Company. The doctors were particularly bitter in their denunciation of the treatment which they said had been accorded them after they had ordered their Bell telephones taken out. One doctor said that careful investigation showed that the operators had, apparently acting under orders, neglected to tell callers that certain telephones had been removed, but had instead told them that the line was 'busy.'"

The Bell company did not give up without a struggle, as will be seen by the following extract from the Kansas City Journal of April 14, in its report of the same meeting: "The telephone controversy with which the druggists have been identified ever since the entry of the Home company into the local field again claimed attention yesterday. At the last meeting of the association the Bell company made a proposition to furnish service to the druggists in various ways in order to forestall the contract that was to be entered into by the druggists to adopt the Home service exclusively. At the former meeting it was decided unanimously by the drug men to accept only the Home service and the latter company agreed to put in nickel-in-the-slot phones of any other kind that the druggists wanted."

"At yesterday's meeting the Home company presented a written proposal ratifying the formal verbal agreement which was accepted. The representatives of the Bell company asked to be allowed to make a new proposal to the druggists but they were not allowed to enter the meeting. They then sought a conference with President Riddle, but the latter told them that he was not authorized to treat with the Bell company. They asked him to take the matter before the druggists, which Dr. Riddle did. The druggists sent word to the Bell representatives that the matter of a telephone had been settled definitely and that nothing the Bell company could do now would serve to square it with them."

"Dr. W. F. Morrow, chairman of the telephone committee of the Jackson County Medical Society, was present and told the druggists of the determination of his organization to stand by the Home company and that it was the company that had made the first proposition to lower telephone rates to business organizations. He pointed out that after the Home company had done this the former arrogant Bell company sought to come in on the com-

petition and that he did not think it fair to consider the Bell company as a competing company. Dr. C. A. Ritter, president of the Academy of Medicine, stated substantially the same thing, as also did Dr. Stewart and Dr. Sawyer, each representing a different school of medicine.

"Carl Skaer stated that the grocers' association was with the doctors and druggists. It was stated at the meeting that thus far 157 members of the druggists' association had pledged themselves to subscribe only for the Home phone and that there were five at Independence who had done the same."

"It was stated by one of the speakers that where the Bell company had been ordered to take out its 'phones when those numbers were called 'central' was instructed to tell the caller that they were 'talking' out of the city, or out of order, or anything except that the instruments had been taken out."

Vice President Snyder of the Kansas City Home Telephone Company had the following to say: "We have gained a great victory. We started our campaign several months ago among the business men's associations and last night's meeting is a very gratifying culmination of our systematic attack upon the enemy. The Home Telephone Company is on top and will continue to hold that position. We have now over six thousand subscribers, each one having a metallic circuit main line connection, and with the new apparatus and our new facilities since we moved into our present home in January last, we will give our subscribers the very best service obtainable. We opened our first toll line one month ago, to Independence, Mo., and the business has been immense from the very first. Since then we have opened a three circuit line to Topeka with results that are both flattering and highly satisfactory. We are also building out of Sedalia and will soon have a connection through that point with St. Louis, Indianapolis, Columbus, Cleveland and Toledo, as well as to Birmingham, Kansas and all parts of Oklahoma. At the same time (about thirty days) we will have connection with St. Joseph, Atchison and Leavenworth."

"Besides the retailers' associations, which have voted to adopt our service, the manufacturers' association has appointed a committee to consider the advisability of following the example of the former, and we have every reason to believe that the report of the committee will be favorable to our company. We are receiving hundreds of new contracts and are installing as rapidly as possible with a greatly increased force. We do not know just how many telephones the revival company has in use, but we understand from a reliable source that they lost three thousand on the first of April."

The growth of the Kansas City Home Telephone Company has been one of the miracles of the independent movement, and the great property is a lasting monument to the sagacity, business ability and 'get there' qualities of Messrs. Barber, Snyder and Brailley, the originators and promoters of the plant. It is the acme of telephone development and should be held up as a model and pointed to with pride by every man, woman or child who is interested in independent telephony.—Exchange.

NEW UNIFORMS

Of The Local Team Are Brown and White.

South Kentucky College Wipes Up The Earth With Clarks-ville.

The S. K. C. team defeated the Clarks-villes three straight games, last week. They played the home team yesterday afternoon and will play again at 3:15 this afternoon. Wednesday and Thursday they will play Bethel College here and Friday and Saturday will go to Lebanon, Tenn., to play the Cumberland.

The Home Team.

The locals donated their new uniforms for the first time yesterday. They are of St. Louis brown with white trimmings. The caps are brown, lined with green and have white bands. The uniform is much prettier and more showy than the gray of last year. Several changes have been made in the team and the weak places will be strengthened. The team will open the season at Cairo tomorrow.

According to the original schedule prepared by League Secretary M. Farabaker, of Cairo, Paducah did not have a single holiday game, only a few Sunday games, though it is the largest city on circuit. At a meeting of the delegates Thursday afternoon the schedule was arranged satisfactorily to President Sam Jackson, of the baseball association. At this meeting Paducah was given the game on July 4th with Clarks-ville and all games at Hopkinsville with Paducah on Sunday were transferred to Paducah. All Sunday games scheduled at Clarks-ville and Hopkinsville at either of these towns will be played in Henderson.

NEW FURNITURE FIRM.

Rogers & Redmond Open up on Virginia Street.

Messrs. Jas. F. Rogers and J. C. Redmond have opened a furniture store on North Virginia Street, opposite Toke Smith's livery stable, and the firm name will be Rogers & Redmond. Mr. Rogers is well known here and needs no introduction to the public. His partner comes well recommended as a progressive business man. The latter is an expert furniture packer and the firm will make this branch of the business a specialty. See their advertisements in the Kentuckyian.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, disorganizes and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Kidney is soon realized. It is sold by Druggists, in fifty-cent and one dollar bottles. You may have a sample bottle by mail free, also pamphlet telling name of Swamp-Kidney, all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Kidney, Dr. Kilmer's Swamp-Kidney, and the address, Binghamton, N. Y., on every bottle.

JAPANESE MOVE.

Port Arthur Cut off From Land Communication With Outside.

St. Petersburg, May 6.—A dispatch received to-night says that Port Arthur is cut off from all communication by land, the Japanese having disembarked in its rear, occupied the railroad and cut the telegraph.

Admiral Skrydloff, who is en route to Port Arthur to take command of the naval forces in the Far East, will be unable to reach his destination.

News of very heavy fighting near Feng Wang Cheng is expected within 36 hours. Large reinforcements have reached the Russian position.

STICKING PLASTER

Placed on a Little Pupil's Mouth by a Bavarian Teacher.

In Bavaria, where teachers have the right to maltreat children, they are inventing new cruelties every little while to show their power, which supercedes that of parents even. One of these brutes recently placed six inches of sticking plaster over a little girl's mouth, keeping it there for an hour, because she had been caught whispering to a schoolmate. The child was nearly choked to death and she is now in a mental state bordering on insanity, yet the parents can do nothing, the teacher being privileged to exercise "his right" to punish as he sees fit.

DR. JOHN O. RUST,

Prominent Minister Has Been Seriously Ill.

Dr. John O. Rust, who has been seriously ill at his home at Seattle, Wash., may come back to Nashville for a few months for the benefit of his health. Several days ago a letter was received from Mrs. Rust, stating that Dr. Rust suffered a stroke of paralysis following an illness of la grippe. The attack effected his right arm and throat, making it difficult for him to speak. Mrs. Rust said that his physician said he was slowly recovering, although she expressed great uneasiness.

It was inferred from one of the letters received that Dr. Rust probably contemplated either making Nashville a visit or visiting his sister at Hopkinsville, Ky., as soon as he is able. Several telegrams inquiring in regard to his health have been sent to Seattle from Nashville, and no reply has been received. For this reason it is thought possible that Dr. Rust may be now on his way to Nashville, and may reach here in time for the annual meeting of the Southern Baptist Convention. It is thought that Dr. Rust's congregation in Seattle would give him leave of absence.—American.

Good Health to the Children

Children especially are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

IN STORMY SESSION

Connecticut Democratic Convention Instructions For Parker.

Hartford, Conn., May 6.—In one of the stormiest gatherings the party ever held in Connecticut the Democratic State Convention today chose fourteen delegates to the St. Louis convention and instructed them to vote as a unit, and for Alton B. Parker, of New York, as the Presidential nominee.

A climax came at the end of two hours of angry debate between Hearst and Parker delegates, in what escaped by a hair's breadth in being a personal encounter in full view of the convention between former Gov. Thomas N. Waller, of New London, and Dr. F. J. Brothers, of New Haven. The question being debated was the substitution of the minority report of the Committee on Resolutions for the majority report. The former report favored an unpledged delegation, the latter a pledge for Parker and the unit rule. Personalities were bandied back and forth, the attack on Gov. Waller accompanying charges that he had deserted the party in 1896.

Much of the actual debate between the chief participants in the incident was unheard in the upper but their actions could be seen. They were forced almost into personal contact by the delegates crowding about. The incident was quickly smoothed over. The minority report was refused substitution, 386 to 186, and the majority report adopted.

MEETS JUNE 8

Place of Democratic State Convention is at Louisville

County Conventions to Select Delegates June 4. The Official Call.

Lexington, May 6.—Louisville gets the state Democratic convention. It will be held on Wednesday, June 8. County mass conventions to select delegates thereto will be held in the counties on Saturday, June 4. The vote of the committee for Louisville stood 11 to 1 against.

The executive committee was called to order at 2:30 o'clock by Chairman Young. All answered present except Committeeman Mescham, whose proxy was held by Committeeman Roark. Committeeman Ringo received a recognition and read to the committee a resolution providing for holding the state convention of the party at Louisville on June 1, the delegates thereto from the counties to be selected in mass convention on May 28, the delegate vote to be based on the Bryan 1900 vote.

Committeeman Morgan, of Anderson, moved to hold the state and county conventions a week later than fixed in the Ringo resolution, so that the state convention be held on June 8 and the county conventions on June 4. Mr. Ringo accepted the resolution offered and Committeeman Lee then moved to substitute Lexington for Louisville as the place for holding the convention. The committee by a vote of 11 to 1 defeated the Lee resolution. Mr. Lee being the only committeeman to vote for Lexington. The committee then adopted by acclamation the Ringo resolution and took a recess for an hour. The official call reads:

The Official Call.

Resolved, That a state convention be held in the city of Louisville, on Wednesday, June 8, 1904, for the purpose of selecting delegates to the national Democratic convention to be held at St. Louis, July 6, 1904. Said convention shall be called to order at 2 o'clock p. m., standard time. Delegates to said convention shall be chosen at county mass conventions to be held at the various county court houses in counties having but one legislative district, of which due notice shall be given by the various county chairs. In counties where current courts may be held in two different towns, as provided for in house bill No. 281, of the general assembly of 1904, the convention shall be held in the larger town.

In counties having more than one legislative district, there shall be a convention for each legislative district, to be held at some convenient point, to be indicated by the chairman of each legislative district committee, who shall advertise in the local papers the location for said convention at least ten days prior to the date fixed by this committee. Said county and legislative district conventions shall be held at 2 o'clock, standard time, on Saturday, June 4, 1904. Said conventions shall be called to order by the chairman of the respective county or legislative district committees.

The basis of representation of each county to the said convention shall be one delegate for each two hundred votes and fraction thereof, consisting of one hundred or more votes cast for the head of the Democratic electoral ticket at the presidential election in 1900, provided that each county shall have at least one delegate vote.

All persons who will at the November election, 1904, be legal voters in this state, who are devoted to the principles of the Democratic party, and desire to see these principles succeed, and who by participating in the mass meetings, will feel in honor bound to support the nominees of the Democratic national convention, shall have the right and are hereby invited to participate in the said meeting.

BABIES ON FIRE

With Itching, Burning, Sealy Humors of the Skin

Instantly Relieved By Baths with Cuticura Soap

And Gentle Applications of Cuticura Ointment.

Instant relief and refreshing sleep for skin-tormented babies, and rest for tired, fretted mothers, in warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, the great skin cure, and parent of emollients, to be followed in severe cases by mild doses of Cuticura Solvent.

My niece's little baby boy, two years old, was so badly afflicted with eczema that he needed constant watching. It was all over his face and he scratched the sores constantly. Morning and night his face was always full of large sores. They had medical treatment, and tried everything they heard of, but the sores left his face and he was entirely cured, and now his face is as smooth and rosy as though no sore had ever been there to mar it.

WILL MEET HERE.

Effort Will be Made to Organize the Farmers.

The American Society of Equity will hold meetings in Hopkinsville, Monday, May 23, the object of which is to organize one or more local unions of the society and arrange for organizing Christian county at once. The meetings will be held at 2 p. m. and 7:30 p. m. The plan of this farmers' society is different from any former one. The American Society of Equity proposes to organize farmers to regulate marketing and thus compel the price. It believes the world must have what the farmers grow—all food and clothing supplies. It organizes the farmers, and teaches them how to market their crops over the whole year instead of dumping them soon after harvest so that other people hold and manipulate them. It believes in farm storage rather than city storage.

President Everett and Assistant National Organizer Sherman, recently made a tour in Ohio, Webster, Henderson, Davies, Breckenridge, Fulton, Caldwell and Hopkins counties and crowds came to hear the new plan of cooperation that is calculated to bring farmers to the front where they belong. The entire western end of Kentucky is worked up to a point of activity and enthusiasm such as was never equaled before by any farmers' movement, and this movement suits the farmers better than any former one because it is not secret and because it does not antagonize any other business.

DESERT TO BLOSSOM

ARIZONA LANDS TO BE SUPPLIED
WITH NEEDED WATER.

Government to Establish a Great Res-
ervoir for the Conserving of the
Water Supply for
Irrigation.

It has been known for a good many
years that much of the land in Arizona
could be made exceedingly productive.
If a water supply were assured, At-
tempts have been made at irrigation,
but the water supply of the rivers is
such an uncertain quantity that it has
been practically a failure. To-day there
may be a flood of waters coursing
through the rivers, and a few days later
the river will have diminished to a stream
that is unable to supply the irrigation
ditches with water. To illustrate by
some figures taken in 1891, when the
greatest flood ever known in Salt River
valley since its settlement occurred:

On February 17 the mean discharge
of Salt River was 836 second-feet, in-
creasing the next day to 164,000 second-

feet, and on the 18th to 276,000 second-
feet. This first flood diminished rapidly,
the river on the 20th averaging only
69,100 second-feet and on the 22nd 14,930.
This was followed by a second swell
greater than the first, the flood increasing
until the 24th, a maximum of 300,
000 second-feet was reached. This sub-
sided almost as rapidly as it came, so
that by the second day after the river
was carrying less than 15,000 second-

feet, and on the 18th to 276,000 second-
feet. This first flood diminished rapidly,
the river on the 20th averaging only
69,100 second-feet and on the 22nd 14,930.
This was followed by a second swell
greater than the first, the flood increasing
until the 24th, a maximum of 300,
000 second-feet was reached. This sub-
sided almost as rapidly as it came, so
that by the second day after the river
was carrying less than 15,000 second-

It will be readily seen from these fig-
ures, which are a reliable index to the
fluctuations of the flow of the rivers
in the Salt River valley, that the water
supply cannot be depended upon, just
when the cultivator needs water to
mature his crops, burning, blistering,
destroying drought is upon him. The
unprecedented drought of the last three
years has forced that section of Arizona
to action, and government aid has been
entreated.

Sites for three reservoirs have been
surveyed for the Salt River valley, which
lies south of the center of Arizona terri-
tory, and contains by far the largest ir-
rigated area in the territory. The Ton-
to basin reservoir on the Salt River,
the McDowell reservoir on the Verde river
west of Tonto basin, and the Hinkley re-
servoir to the north of the McDowell
reservoir, also on the Verde river. These
last two reservoirs it is estimated will
have a capacity of about 20,000 acre-
feet, but when they will be built is un-
certain. The McDowell reservoir would
cost \$1,024,731. The government has be-
gun active operations already for the
construction of the Tonto basin reser-
voir.

The site of the dam which will inclose
the immense body of water of this last-
named reservoir is situated 40 miles
from the nearest railroad point and the

transportation of the immense amount
of cement and other materials over the
mountain ranges was a serious and ex-
pensive proposition. The temptation
was strong for the building of a dam
of the rock-fill type. Instead of a ma-
sonry dam, as it would be much cheaper
much more of construction material
estimated that it would take 100,000 bar-
rels of cement for the masonry dam, and
the haul of 40 miles would make it cost
nine dollars a barrel. This made the dam
practically prohibitive. But the en-
gineers were loth to give up the plan of a
masonry dam, and began investigations
to see if there were not materials at hand
for the making of cement. These ef-
forts proved successful and a cement
plant with a capacity of 300 barrels a day
has been established near the dam. The
cost of the plant was \$20,000. Water
power is to be obtained by diverting
water from the Salt River above the reser-
voir site through a canal above the
proposed site and dropping it through a
penstock just below the dam. Work
on the canal is being pushed, and with
the power thus obtained the plant will
be run. Charcoal will be used for burn-
ing the cement briquettes, and the cost
of producing the cement will be about
two dollars per barrel.

The capacities of the proposed reser-
voir was determined by a plane-table sur-
vey for each ten-foot contour to a height
of 300 feet above the bed of the river in
the gorge.

QUEER CANDLE AUCTIONS.

Method Still Employed in a Few English Parishes—Bidding Stops When Flame Dies.

A curious method of sale by auction, which is still observed in one or two places as a matter of ancient custom, but which was once very common, is sale by candle. The Ashton (English) Reporter. A fragment of candle, an inch or less in length, was lighted as the thing to be sold was put up, and the auctioneer received bids so long as the candle burned. The successful bid was the last made before the flame went out. When the competition was all keen it must have required considerable acuteness and a nice power of discrimination on the part of the auctioneer to know who spoke last. Mr. Pope gives a graphic description of the sale of some old hawks in the Thames "by the candle" and remarks that it was pleasant to see how backward men were at first to bid, but when the candle was going out they bawled!

At another admirably sale, conducted by a like method, the same chronicler says that the competition was so sharp that they had much difficulty in telling who cried last. Some curious things besides wornout ships were sold by candle. In 1684 it was advertised that two elephants, the one male and the other female, would be "exposed to sale by candle" and that "the price and places where to be seen and sold" were to be notified later by means of printed bills. The price, which was to be so published, was, presumably, the upset price fixed by the reader. One can hardly imagine that the bidding was very lively for the two ponderous creatures or that any prospective buyers, save perhaps an itinerant showman or two, would be likely to attend the sale.

Another unusual sale was advertised in the following year in the London Gazette, where it was announced that there would be "exposed to sale by the candle at the Marine and Carolina coffee house, in Birchin lane" all sorts of playing cards, in small lots, surveyed by Robert Whitfield, master cardmaker (appointed by approbation of the company of cardmakers for that purpose). It is curious that the custom of selling by the candle was flourishing recently and perhaps still flourishes in the far east. In the consular report on the trade of Saigon and Cochinchina, issued in 1878, it was stated that certain descriptions of lands were only to be obtained at public sale which were conducted by the candle, the dying out of three lights before a higher bid was made concluding the bargain. The method was probably introduced by the French and brought hence to this country. In a few English parishes the candle method is still employed in the periodical letting of public land to the highest bidder.

THE FOUNDER OF QUEBEC.

Facts Concerning Champlain—Discovery of Lake Bearing His Name—First Battle with Iroquois.

Champlain was a bold and skillful French navigator; he founded Quebec in 1608, and having established friendly relations with the Indians along the St. Lawrence, marched a body of those, with some Hurons and others, against the Iroquois in 1609, says the Four Trunk News. His accounts of that expedition and of another made in 1615 into New York state territory, are among the most interesting of the Paris documents. The expedition of 1609 reached the lake (to which Champlain gave his own name), upon which it passed in canoes to a point in what is now the town of Ticonderoga, where he encountered about 200 of the Iroquois armed only with bows and arrows, and a battle followed. What he wrote of the engagement is both romantic and pathetic:

"The moment they (the Iroquois) saw me they halted, gazing at me and I at them. When we were preparing to shoot at us, I raised my arquebus, and aimed directly at one of the three chiefs. Two of them fell to the ground by this shot; one of their companions receiving a wound from which he died afterwards. I had put four bolts in my arquebus. . . . The Iroquois were greatly astonished at seeing two men killed so instantaneously."

Why Pills Grip.

Just because they contain harsh and drastic drugs, with nothing to modify their violent. It is need of a laxative, you will obtain satisfactory results by taking Dr. Caldwell's (Laxative) Syrup Pepsin, a "corrective," not a "cathartic" laxative. Its action is gentle, it assists nature to put the stomach and bowels in normal condition and never sickens; children, as well as grown people, love it for its pleasant taste. The soothing action of the pepsin makes the digestive process perfect. Try it and you will wonder why you ever have before. All druggists sell it. 50c and \$1.00 sizes.

Hon. Almon Willis, of Jamaica, Vt., writes: "We have been using Dr. Caldwell's Syrup Pepsin for our little boy and find it far better than any laxative we have ever used for him, and we tried many different kinds."

HEARST WINS.

Combines With Hopkins Forces to Beat Mayor Harrison.

Chicago, May 2.—In the Democratic primary today William R. Hearst scored a victory over Carter Harrison. Of the delegates Hearst secured 227, Harrison 195, and ten were instructed for John P. Hopkins. The defeat of Harrison, which practically means his demise politically, was secured by a coalition of Hearst and Hopkins.

CABLES UNDER THE OCEAN.

Cost of Telegraphy Through Their Medium is Largely Reduced—Other Interesting Facts.

It still costs a good deal of money to send a long dispatch across, or under, the Atlantic ocean, but the rates have been greatly reduced since the first deep sea cable was laid.

In the early days of submarine cables the minimum tariff was \$100 for 20 words and \$5 for each additional word. This was reduced after a few years to \$25 for ten words. In 1872 a rate of \$1 a word was introduced. The word-rate system proved popular and was soon established universally. Since 1888 the cable rate across the Atlantic has been down to 25 cents a word, and the tariff now ranges from that figure to \$5 a word between England and Peru. The average for the whole world is \$1 a word, and this the Commercial Cable company charges from America to the Philippines, as against the former toll of \$235. From New York to New Zealand the charge is only \$1.50 a word. There are 200,000 miles of submarine cables, enough to go eight times around the globe. Their cost was about \$200,000,000. Their present value is \$300,000,000. Deep sea cables are a solid investment. The shortest cable is one-fourth mile in length; the longest is 15,000 miles. The total number is 1,700. Nearly all of the shorter lines are the property of governments. They aggregate 15 per cent of the whole.

Private corporations own 420 cables, or 85 per cent of the total mileage. The life of a deep-sea cable is from 30 to 40 years. The main portion lies in a bed of ooze two miles or more beneath the surface of the water and is practically imperishable. In shallow water cables are attacked by sharks, swordfish, sawfish, rocks and anchors. In the Fifth of April 13 ships' anchors were once found entangled in a length of four miles of cables.

ELECTRICITY AND HEALTH.

Possible Explanation of One Effect of Thunderstorms—Scientific Facts and Theories.

For a long time it has been known that Public Opinion, that atmospheric electricity keenly affects us, and investigators have shown that positive electricity produces vigor and a feeling of general good health, while on the contrary negative electricity has a depressing effect. We are submitted to these contrary effects according to the state of the atmosphere, sometimes negative electricity dominating, at other times the positive element, it being possible to determine the electrical condition by means of delicate instruments.

A German meteorologist, Dr. Schliep, claims that it is possible to determine approximately the condition of the atmosphere by comparing the curves of the registering barometer on one hand with those of the thermometer and the hygrometer on the other. Dr. Schliep states that when the barometer descends while the thermometer and hygrometer ascend, the atmosphere is charged with negative electricity, while the electricity of the air is positive when the barometer ascends and the thermometer lowers.

A naval physician, Dr. Jolly, has applied the Schliep rule in Madagascar, and by comparing the instruments he has been able to fix the changes of the electrical condition, changes which vary during the day and night. During the dry season there was an excess of positive electricity, while during the winter there was an excess of negative, Dr. Jolly observing that both in his own case and that of other subjects the best condition of health was correspondent to the periods of discharges, while during periods of negative dominance there was weakness and lassitude. These changes also have their echo in the state of general health, notably in fevers.

FOR WEEKS,

Walked With Crutches, Now Going Without Them.

Remarkable Cures Made By the Use of Payne's Remedies.

Dr. Payne and his street concert continue to be the chief topic of discussion.

His medicine is working wonders and another tapeworm of immense length was yesterday exhibited alive, that was taken from a well known butcher, of the city.

His concerts are being held daily on Ninth street and beginning to-night the concert will be given in the vacant lot corner 14th and Clay streets, opposite Foulk's coal yard, instead of at Mercer's park.

Why hobble around on that old crutch all summer—see what Payne's Remedies are doing for others, it can do the same for you.

Mr. Hill, blackman of this place, had not been able to walk without his crutches for several months, owing to a bad case of rheumatism, he is using Payne's New Discovery and Quick Relief and now goes where he chooses without crutch or cane.

Mrs. Robert McCombs, who lives on the Canton pike, seven miles from town had been using crutches for some time, her husband bought some of Payne's Remedies Monday and now reports that she has laid aside her crutches.

Payne's New Discovery is not a cure all, but is positively guaranteed to cure rheumatism, catarrh, stomach trouble, piles of any form. The price of this remedy is \$1 per bottle, six bottles for \$5. With a bank draft guarantee that if it fails to cure anything for which it is recommended, the money will be refunded.

Payne's Quick Relief is the one that supplies stiff joints, for headache, toothache, neuralgia, any ache or pain. Price 25c per bottle. Payne's Medicated soap, the great skin and scalp preparation, known the best for shaving or bath.

These remedies can be obtained at the sales rooms opposite the court house, or from the platform at night.

Mrs. Payne, graduate from Chicago School of Optics, is prepared to give your eyes a perfect fit. Call and see the latest instruments for testing the eye. Free testing. Free.

See the big free show to-night at corner 14th and Clay streets.

LEG BADLY FRACTURED.

Mr. Daggs Falls From Scaffold With Serious Results.

Mr. J. H. Daggs, supervising contractor for the Forbes Manufacturing Company, while superintending the construction of a building for Mr. P. B. Pendleton, near Pembroke, Friday afternoon fell from a scaffold and sustained a fracture of both bones of his left leg between the knee and ankle. He also sustained a bad scalp wound, which caused considerable loss of blood.

Dr. Austin Bell, of near Longview, and Dr. H. H. Wallace, of this city, were immediately called and rendered the necessary surgical aid.

Mr. Daggs was able to be brought to his home in this city Saturday morning and is now getting along quite nicely. It will be some time, however, before he will be able to be out.

NEAR HIS BRIDE

For a week before Groom disclosed His Identity.

Madisonville, Ky., May 8.—A pretty romance preceded the marriage at the Boyd Tavern, at this city, Ky., yesterday morning of J. N. Orgdon, of Redlands, Cal., and Miss Susie Boyd. In answer to an advertisement the couple began to correspond about a year ago, when portraits were exchanged. The young lady engaged in the matter for more pastime, but a real betrothal by mail followed.

About a week ago a young man arrived at Oak Grove, and took lodging at the Boyd inn, giving his name as Don Carlos Greene. He claimed to be prospecting in mineral lands around the place. He kept up his incognito for a few days, during which time he was a close observer of his bride to be. When he was satisfied that all his expectations as to her conduct and character were realized, he announced himself to her as her future husband.

They are now on their way to the home of the groom in California. Mr. Orgdon is reputed to be very wealthy.

MOOT COURT.

Popular Young Beau to be Tried For Flirting.

All who attend the Moot Court to be held on next Friday, the 13th, will have an evening of rare fun and enjoyment. The reputation of each gentleman in charge of the case, Messrs. Feland and Underwood for the prosecution; Judge Fowler and Mr. Meacham for the defense, assures an interchange of wit and repartee that the public rarely has an opportunity to enjoy. The indictment against Mr. L. A. Tuggle is of such a nature as to arouse the keenest interest among all the young people of the city. Some of the most popular young ladies are to be witnesses against him, while others are to testify in his behalf.

Those mentioned in the indictment are Misses Joy Herndon, Mary Jones and Jean McKee.

BAPTIST CONVENTION.

\$200,000 Libel Suit.

Dr. R. V. Pierce's company, The World's Dispensary Medical Association, of Buffalo, N. Y., has brought a suit for libel against the publishers of The Ladies' Home Journal, of Philadelphia, for \$200,000 damages. The sworn complaint has been filed in the Clerk's office at Buffalo, N. Y. It appears from this that The Ladies' Home Journal in a recent number published an attack on patent medicines. This article charged that the well-known remedy, called "Doctor Pierce's Favorite Prescription," contained seventeen per cent. of alcohol, also certain drugs, and that these ingredients made the medicine harmful and dangerous. The sworn complaint shows that the above statement is wholly and absolutely false in every particular, and that the medicine contains no deleterious ingredients whatever, and none of the ingredients stated in the article so published, being made of certain extracts of medicinal plants and roots—harmless to the most delicate constitution.

When called upon, Dr. V. Mott Pierce, an officer of the company said:

"In a recent article, The Ladies' Home Journal made this wholly unfounded attack upon our remedy. The charges made against our medicine are absolutely false, as the complaint in our suit shows. We find it hard to understand how a reputable magazine of the high standing and enormous circulation of the Ladies' Home Journal should make such a damaging statement without taking pains to ascertain the facts. The remedy, 'Doctor Pierce's Favorite Prescription' is so well and favorably known, and has such a wide sale, that we could not afford to allow such a charge to pass unanswered. The fact is the 'Favorite Prescription' is composed of extracts of medicinal plants, roots and herbs, which would not harm the most delicate system. It is a false and unfounded attack upon the good name and reputation of our company."

SONG OF THE OSBORNE.

The time has come, the Walrus said,
To talk of things that hem us in.
The Tobacco trust, the Binder trust,
And other trusts that might have been
The Walrus fights with his mighty tooth
The fish will use his prickly fin,
And we must fight with the sword of tru
Or these big trusts will hem us in.
Trust means bust, to bust is---well,
N' trust, no bust, no---need to tell.
If you buy a Binder from the trusts,
And all repairs are given free,
When it's time to pay, you have't the dust
At the price you get for Tobacco---SEE?
A Binder's dear at any price,
And all things else that you may buy
When the trusts have got you in a vice,
For they get all the chicken pie,
The OSBORNE is a fine machine,
Not in the trust---will never be
T'will cut your wheat crop quick and clean,
And put the big trust up a tree.
